1. Out-of-class student-teacher interaction (undergraduate). how can we improve such interactions, particularly in encouraging students to seek teachers for help in their course work and perhaps also in personal matters that affect their work?
2. Graduate students have asked for activities to help them know other graduate students and teachers better. Suggestion for activities?
3. Cancelling of astronomy and math-physics majors. Any additional concern or comments to pass on to the Dean/Faculty?
4. Students continue to ask for feedback on their final exam results. What would they most like? e.g., comments from course coordinators on course website/email; tutorial to review final exam.
5. Report from individual year representatives.
