

## **Announcement of 2016 Daniel Tsui Fellowship**

The Centre of Theoretical and Computational Physics in the University of Hong Kong is pleased to announce that The 2016 Daniel Tsui Fellowship is awarded to:

Prof. **Gang Chen** from Fudan University for his “*important contributions to theories for quantum spin systems*”.

### **Brief Information of Daniel Tsui Fellowship in The University of Hong Kong**

1. The Fellowship is to provide opportunities for outstanding young physicists within 15 years after receiving PhD in Mainland China and Taiwan or in Singapore to carry out research at the Center.
2. The Fellowship is awarded via a rigorous selection procedure. The Selection Committee consists of Steve Louie (Chair, UC Berkeley), William Goddard III (Caltech), Patrick Lee (MIT), Anthony J. Leggett (UIUC), T. M. Rice (ETH-Zurich), Matthias Troyer (ETH-Zurich), Daniel Tsui (Princeton Univ.), Frank Wilczek (MIT), and Shou-Cheng Zhang (Stanford Univ.).
3. Each Daniel Tsui Fellow is expected to carry out up to two-month research at the Centre with the honorarium of HKD 40,000/month, which is jointly supported by the Centre and Physics Department. A return trip to Hong Kong and health insurance from The University of Hong Kong will be provided.
