## Daniel Tsui Fellowship in The University of Hong Kong

The HKU-UCAS Joint Institute of Theoretical and Computational Physics in the University of Hong Kong calls for the application of Daniel Tsui Fellowship.

- The Fellowship is to provide opportunities for outstanding young physicists in China including the mainland and Taiwan, or in Singapore, within 15 years receiving Ph. D., to carry out research at the Center.
- Normally one Fellowship is awarded annually. Each Daniel Tsui Fellow may carry out up to two-month research at the Institute with the honorarium of HKD 40,000/month. A return trip to Hong Kong and health insurance from The University of Hong Kong will be provided.
- The appointment of Fellows follows the normal appointment procedure in The University of Hong Kong. A certificate will be presented to each fellow.

### Procedure for Year 2021

- **Applications are now called for year 2021**, and should be received by the Centre's Selection Committee not late than **30 September 2021 (extended)**, with each application including a full CV and 3 representative publications plus 2 recommendation letters (electronic files are preferred and should be sent to the Selection Committee at e-mail address: [ctcp@hku.hk](mailto:ctcp@hku.hk) or send hard copies to the Committee, c/o: W. Yao, Department of Physics, The University of Hong Kong, Pokfulam Road, Hong Kong). Results are expected to be announced in late 2021. The Fellowship is expected to be taken up in the year 2022, which is jointly supported by the Institute and Department of Physics.
- **The Fellowship is selected by the Centre's Advisory Committee.**

### About the Institute

- The "HKU-UCAS Joint Institute of Theoretical and Computational Physics at Hong Kong", formerly known as the "The Centre of Theoretical and Computational Physics (CTCP)" which was established in September, 2005. Prof. Daniel C. Tsui, 1998 Nobel Laureate in Physics for discovery of a new form of quantum fluid with fractionally charged excitations, has been the Honorary Director of CTCP. In 2019, CTCP was retitled to "HKU-UCAS Joint Institute for Theoretical and Computational Physics at Hong Kong", to join force with KITS at UCAS to enhance the collaboration on academic activities on theoretical and computational physics.
- The current Advisory Committee consists of S. Louie (Chair), W. Goddard III, H. Guo, P. Lee, A.J. Leggett, T.M. Rice, M. Troyer, D. Tsui, F. Wilczek, and F.C. Zhang.
